

3rd Croatian Conference on Earthquake Engineering 3CroCEE

Wednesday, March 19, 2025 - Saturday, March 22, 2025

Split

Conference Topics

Seismic Performance of Structures

Historical Structures

Repair and Strengthening of Structures

Experimental Techniques for Characterization of Materials and Structures

Geotechnical Earthquake Engineering

Lessons Learnt from Earthquake Disasters

Seismic Loss and Risk Analysis

Engineering Seismology

Preparedness and Emergency Management

PhD special session

Special session: Post-Earthquake Reconstruction Process

Special session: State-of-the-art of Earthquake Retrofitting of Structures

This special session is chaired by prof. emer. Amr Elnashai.
